Xiangshan Visitor Center

Designed by the internationally renowned Japanese architect "Norihiko Dan" the building is designed to surround Sun Moon Lake with water, turf, and wooden water molds to form a simple landscape inside and around the building. The semi-architectural landscape design creates a stage for the development of dialogue between human and nature.

Yongjie and Tongxin Bridges

The Yongjie and Tongxin Bridges near the Xiangshan Visitor Center, are scenic spots on the bicycle path from Shuishe to Xiangshan.

Checheng Route Map

Checheng Wood Museum

In order to enhance the tourism and recreational resources in the Checheng area and to increase visitors' understanding of the development of the wood industry in the past, the former factory building, which was considered a precious industrial site and a preserved cultural relic, was reconstructed into Checheng Logging Exhibition Hall.

The Grove Taiwan Shopping District

The Grove Taiwan is an example of perfect regional planning and good circulation. The green buildings combine perfectly with the beautiful scenery of Checheng. The recreational area is a great place for exploration, food, shopping, and leisure.

Railway Sightseeing School

Low birth rate and a dwindling population caused the original Checheng Elementary School to be abandoned in 2015 and the building had been empty for years. The Sun Moon Lake National Scenic Area Administration held discussions with the community about revitalization of the school building because the existing visitor center had very little space. The Railway Sightseeing School and the new Checheng Visitor Center have expanded the tourism capacity and services.

Snake Kiln

The Shuili Snake Kiln, which was founded in 1927, was transformed into the first pottery culture park in Taiwan in 1993. It combines the local environment, life, culture, art, tourism and education and continues to run the kiln left by the original founders in a new way.

Toushe Reservoir

The Toushe Reservoir is about 700 meters above sea level, and in secluded surroundings of Sun Moon Lake rarely visited by tourists. The Toushe Reservoir Ecological Trail, Dasheman Creek Ecological Trail (Ginger Flower Trail) and the Shanlongkeng Suspension Bridge are beautiful local scenic features. The area is also a good spot to watch fireflies from April to May each year.

Toushe Elementary School

Toushe Police Substation

Toushe Basin

The Toushe Basin is the third largest basin in the Yuchi Township area, covering about 1.7 square kilometers. "Toushe Rice, Shuishe Fish" is a proverb that was widely used by the residents of the Yuchi area back in the day. It gives a clue as to how fertile and suitable the land is for rice cultivation and how the yield and quality are higher than that of other villages. The basin is known as "the rice warehouse of the Yuchi Township."

## Taiwan Tourist Shuttle

# The Checheng Route Walking Map

"Taiwan Tourist Shuttle Checheng Route" runs through Sun Moon Lake, Shuili, and Checheng, surrounded by mountains, passing through Shuishe Dam, Xiangshan Visitor Center, Crescent Bay, Toushe, and Snake Kiln along the way, where you not only can enjoy the waterfront scenery in the center of Taiwan, but also visit the environmental mysteries of the living basin of Toushe, and have fun. Finally, the tour leads visitors to the most beautiful wooden station in Taiwan, Checheng Station, to experience the tranquility of the "last station." The Taiwan Tourist Shuttle connects the route of Sun Moon Lank and Checheng, and visitors can transfer to the Taiwan Railway Jiji branch line at Jiji, Longquan, and more stations to experience the unique secret places of the mountain towns.
